

ONR Global Overview **(with focus on International Science)**

August 2021

Daniel M. Lofaro
Science Director (Starting FY22)
Autonomy and Unmanned Systems
daniel.lofaro@nrl.navy.mil

ONRG Mission: To serve as the preeminent external network facilitator for the Naval Research Enterprise (NRE)

"...plan, foster and encourage scientific research in recognition of its paramount importance as related to the maintenance of future naval power, and the preservation of national security..."

Science Advisors

- ★ Joint Command
- ★ Navy Command
- ★ Marine Corps Command

Science Directors

- London HQ
- Tokyo Office
- Deployment sites

Focus: International research & partnerships, connecting science and technology (S&T) to fleet/force, global technical awareness

Research Arrangements

- **ONR & ONR Global** work together to **synergize international science activities**
 - ONRG funds *non-US partners* from academia, industry, and non-governmental organizations
 - Cannot fund US individuals
 - Cannot fund foreign military/governmental entities
 - Research grants are for *Basic Science* and *early phase Applied Science* research

International Science Tools

Liaison Visits

- ONRG technical staff attend international events and visit international institutions to develop access and discover cutting edge S&T

Grant tools

Visiting Scientist Program (VSP)

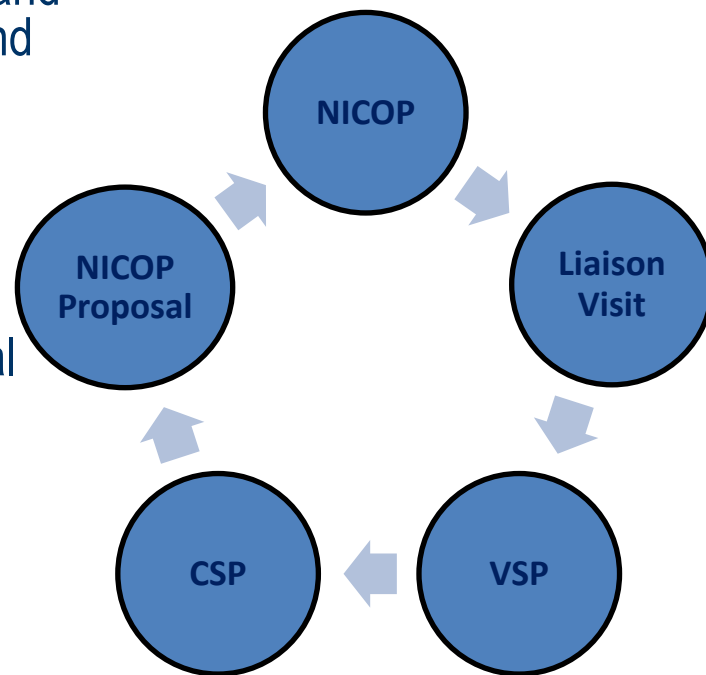

- Support travel of foreign scientists to the US to socialize new S&T ideas or findings with the Naval Research Enterprise

Collaborative Science Program (CSP)

- Support foreign or international workshops and conferences of Naval interest

Research Grants (Naval International Cooperative Opportunities Programs—NICOP)

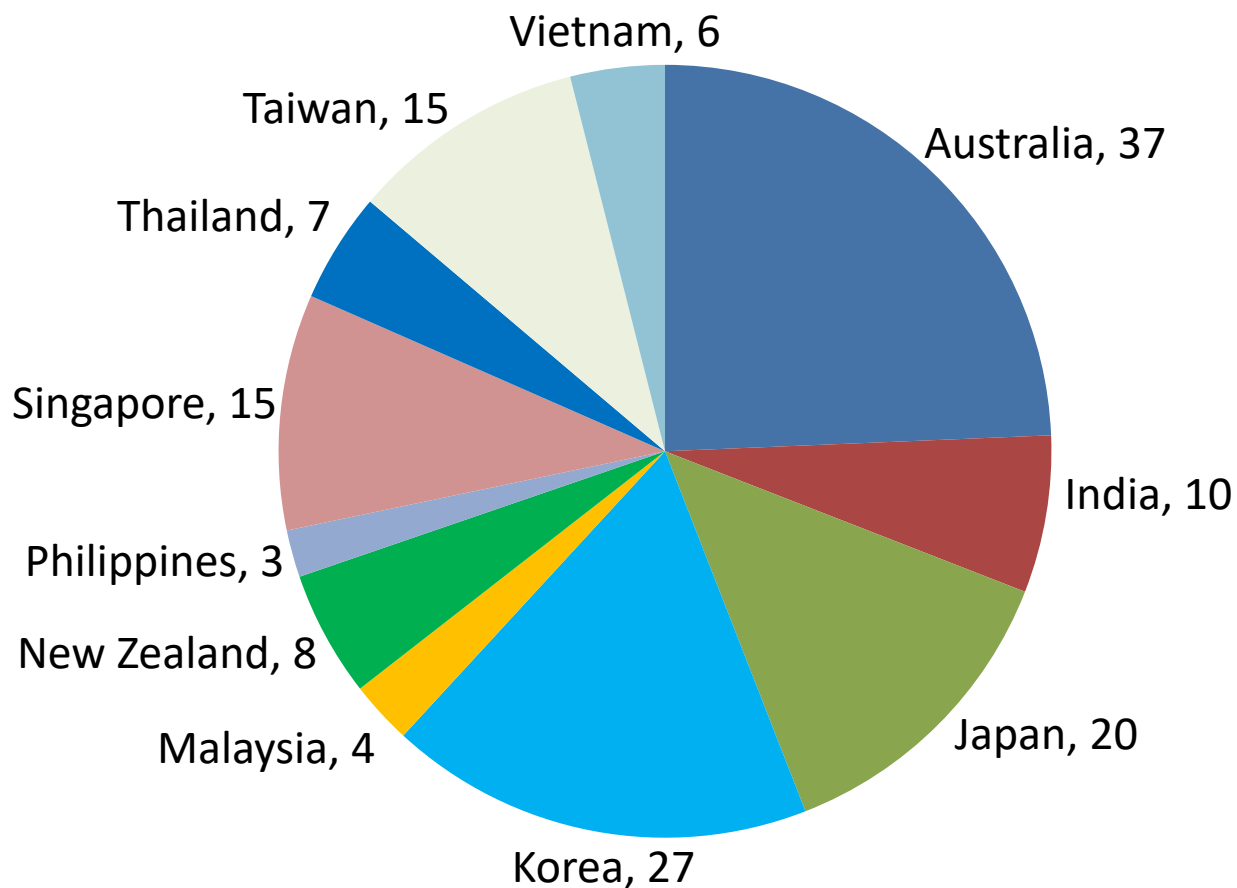

- Support connection of innovative, international S&T to ONR programs and US PIs

Research Grants in Asia/Pacific

2017 snapshot (152 grants)
